Controller

Jacksonville, FL

Ackerman Cancer Center, located in Jacksonville, is seeking a Controller to join our team of highly trained radiation oncologists and medical professionals.

About

Our facilities in Jacksonville and Amelia Island specialize in the most advanced radiation oncology therapies available for all types of cancer. The interdisciplinary team at Ackerman Cancer Center is professional, compassionate, and dedicated to the highest level of care for patients and their families.

Our Board-Certified team includes Radiation Oncologists, Medical Physicists, Medical Dosimetrists, Oncology Nurses, Radiation Therapists, Molecular Imaging Technologists, Oncology Social Workers and an Oncology Certified Dietician.

Our facilities offer advanced treatments such as IMRT, IGRT, SRS, SBRT, VMAT, HDR Brachytherapy and AccuBoost Breast Cancer Radiotherapy. Our technology includes RayStation treatment planning, MOSAIQ EMR, Elekta Linear Accelerators and a MEVION S250 Proton Therapy System.

We also offer comprehensive diagnostic services for the convenience of our patients. These services include: PET/CT, CT, MRI, mammography, ultrasound and bone density scanning.

Job Description

The Controller is responsible for providing financial oversight and planning for the Ackerman Cancer Center. This position recommends and develops strategic business and operational plans focused on revenue growth and expense control which support expansion of business operations. This position also oversees the revenue cycle activities of the billing team, including data analysis and audit, insurance collections and accounts receivable, and financial reporting.

Major Responsibilities

- Direct the fiscal functions of the Practice in accordance with generally accepted accounting principles issued by the Financial Accounting Standards Board and other regulatory and advisory organizations and in accordance with financial management techniques and practices within the healthcare industry.
- Maximize the return on financial assets by establishing financial policies, procedures, controls and reporting systems.
- Design and ensure execution of revenue cycle initiatives related to improving revenue, improving cash collections, reducing cycle times and increasing practice efficiencies.
- Provide status of financial condition of the Practice by collecting, interpreting and reporting key financial data.
- Recommend and participate in the development of Practice strategic growth and operational strategies and plans.
- Oversee billing and front desk departments.
- Prepare, manage and oversee revenue and expense budgets, including forecasts and maintaining performance benchmarks relative to the operations and financial performance of the Practice.
- Collaborate with external accountants and arrange for financial audits as appropriate.
- Assure Practice income tax regulatory compliance while taking advantage of all favorable tax practices.

Requirements

Experience

Required:

- 5+ years' experience as a Financial Manager or as a senior financial administrator
- 2+ years' experience in managing an accounting, billing, or finance function in the healthcare industry
- Bachelor's degree in accounting, finance, business, healthcare management or related field
- Strong proficiency with standard accounting software
- Knowledge of medical billing and insurance practices/procedures
- Proven experience and background in financial analysis and reporting

Preferred:

- 5+ years' experience managing a finance department in a medical oncology practice
- Experience in a proton radiation therapy environment
- MBA with a finance or business major
- CPA certification

Pay/Benefits

Ackerman Cancer Center offers pay commensurate with experience and a comprehensive benefits package.
