MRI Technologist

Jacksonville, FL

Ackerman Cancer Center, located in Jacksonville FL, is seeking an MRI Technologist to join our team of highly trained radiation oncologists and medical professionals.

About

Our facilities in Jacksonville and Amelia Island specialize in the most advanced oncology therapies available for all types of cancer. The interdisciplinary team at Ackerman Cancer Center is professional, compassionate, and dedicated to the highest level of care for patients and their families.

Our team includes Board Certified Radiation Oncologists, Board Certified Medical Physicists, Certified Medical Dosimetrists, Oncology Certified Nurses, Radiation Therapists, Oncology Certified Social Workers and an Oncology Certified Dietician.

Our facilities offer advanced treatments such as IMRT, IGRT, SRS, SBRT, VMAT, HDR Brachytherapy and AccuBoost Breast Cancer Radiotherapy. Our technology includes RayStation treatment planning, MOSAIQ EMR, Elekta Linear Accelerators and a MEVION S250 Proton Therapy System.

We also offer comprehensive diagnostic services for the convenience of our patients. These services include: PET/CT, CT, MRI, mammography, ultrasound and bone density scanning.

Job Description:

Overview:

The MRI Technologist is responsible for performing MRI procedures as directed by the radiologist. The technologist must be proficient in performing quality MRI scans. The technologist must have the ability maintain a team player attitude for the department

10881 San Jose Boulevard

to run efficiently. The technologist will also be responsible for capturing charges, chart documentation, and other tasks as assigned.

Major Responsibilities:

- Perform daily, weekly, monthly, quarterly and annual QA procedures as required by the ACR (American College of Radiology)
- Provide pertinent patient information for diagnostic scans which includes paperwork preparation for the coming days and verifying scan orders
- Computer tasks that entail: completing QCL's, ensuring scans are sent to all destinations (e.g., MIM, EBW, OPAL_DR)
- Communicate with the radiologist to obtain highest quality images for patient diagnosis
- Maintain and oversee MRI annual safety training for ACC employees, as per the ACR
- Maintain accurate and complete records, reports and files
- Coordinate with billing personnel to obtain accurate charges

Experience

Required:

- Associate's Degree in Radiology
- 3+ years' experience as an MRI Technologist
- Radiologic Technologist specializing in Radiography, credentialed from the ARRT
- Certification in Magnetic Resonance Imaging
- Venipuncture skills
- Good computer skills
- Ability to provide patient-focused care

Preferred:

- Bachelor's Degree in Radiology
- 1+ years' experience as a CT Technologist
- CT Certification

Pay/Benefits

Ackerman Cancer Center offers pay commensurate with experience and a comprehensive benefits package.
